

# Auto-Fed Placer / Presses

Models AP-1000, AP-2000

## **AP-1000 Placer/Presses**

These models can be either track or blow fed to meet the requirements of your component. They handle a wide range of part sizes, and are easily applied in various mounting orientations.

## **Part Feeding**

Components up to .59 inches (15 mm) in diameter and lengths up to 2.0 inches (50 mm) can be track fed. Components up to .43 inches (11 mm) in diameter and lengths up to 4.5 inches (114 mm) can be blow fed.

## **Pressing Force**

Dixon's Model AP-1000 Placer/Presses achieve forces from 200 to 1000 pounds (889 N to 4.45 kN). AP-2000

Placer/Presses are blow fed and can accommodate forces from 40 to 400 pounds (178 N to 1.78 kN).
